

Energy policy of KrampeHarex GmbH & Co KG

As a manufacturer of abrasive media and fibres, KrampeHarex GmbH & Co. KG is part of an energy-intensive sector. KrampeHarex GmbH & Co. KG is conscious of the economic responsibility towards its interested parties and is committed to the following sustainable strategic goals:

- conservation of resources
- efficient use of energy sources
- promotion of energy-conscious behaviour among employees

KrampeHarex GmbH & Co. KG takes responsibility for its actions in this context and has an energy management strategy in accordance with DIN EN ISO 50001 which aims to achieve these goals.

KrampeHarex GmbH & Co KG...

- sets specific energy-saving targets for all areas of the company
- provides the necessary resources for the targets
- undertakes to comply with any applicable legal or other requirements
- is committed to continually improving its energy-related performance
- encourages the use of energy efficient products and services
- records and optimises the energy consumption of all energy-related processes
- supports all employees, particularly regarding energy consumption, in order to further develop awareness of energy efficiency

Compliance with the set targets, existing legislation and this energy policy is continually monitored through internal audits and management reviews.
