

## Data sheet | Dosing system

Version 03/2025

# KH 500 ROAD-APPROVED CONVEYOR BELT

#### **TECHNICAL SPECIFICATIONS**

| Dosing capacity                | up to 50 kg/min |
|--------------------------------|-----------------|
| Conveying speed                | 35 m/min        |
| Frequency                      | 50 Hz           |
| Connection alternating current | 240 V/ 50-60 Hz |
|                                |                 |

#### WEIGHT

| Total weight | 650 kg |
|--------------|--------|
|--------------|--------|

#### **DIMENSIONS (TRANSPORT CONDITION)**

| Lenght        | 7,20m  |
|---------------|--------|
| Width         | 1,80 m |
| Height        | 1,36 m |
| Rear overhang | 4,12 m |

### INFO

- > The KrampeHarex KH 500 conveyor belt is a powerful dosing device for problem-free dosing of steel fibres.
- A continuous mass flow avoids surge dosing and thus the so-called steel fibre yolks.
- > Even difficult fibre geometries can be dosed.
- The conveyor belt can be moved flexibly in the ready-mix concrete plant or on construction sites thanks to its tyres.
- > The conveyor belt is approved for use in road traffic.
