Version 03/2025

SF 1200 SR AUTOMATIC DOSING SYSTEM

TECHNICAL SPECIFICATIONS

Fibre type	Steel fibre & Plastic macrofibre
Dosing volume	3.000 litres
Frequency	50-60 Hz
Anschluss Wechselstrom	40 A/ 400-575 V/ 50-60 Hz

WEIGHT

Total weight	2.250 kg
---------------------	----------

DIMENSIONS

Lenght	2,77 m
Width	2,32 m
Height	2,11 m

Subject to change without notice. All specifications are only a general description of our products.

INFO

- › The addition of steel fibres in the TB plant places high demands on the dosing system.
- › On the one hand, high measuring accuracy is required, and on the other, perfect logging and traceability.
- › Our dosing systems are customised to the special features of each mixing plant.
